French medical physicists & EJMP

Paolo Russo

Università di Napoli Federico II, Napoli, Italy

paolo.russo@na.infn.it

Physica Medica – European Journal of Medical Physics (EJMP) is the official journal of Société Française de Physique Médicale. In the last five years, France ranked second in the list of 57 countries contributing papers to EJMP, and article downloads from France are no. 7 in the list of 111 countries where EJMP is read. Five of the sixty Associate Editors of EJMP are based in France. EJMP is also the official journal of EFOMP and it aims at representing the reference scientific journal for all European medical physicists. EJMP is looking for continuous support from French medical physicists via submission of their best papers and by active participation in the editorial team activities. These include increasing the number of submissions, still limited with respect to the potential scientific impact of the large community of French medical physicists, as well as taking on new editorial tasks and roles. In this communication the Editor-in-Chief describes the current numbers and facts of EJMP and encourages his French colleagues, in particular the young medical physicists, to actively participate to the life of their scientific journal.
Physica Medica – European Journal of Medical Physics

The official Journal of:

- Associazione Italiana di Fisica Medica (AIFM)
- European Federation of Organizations for Medical Physics (EFOMP)
- Société Française de Physique Médicale (SFPM)
- Irish Association of Physicists in Medicine (IAPM)

- Supported by IOMP (to be announced)
Acceptance Rate

- **2017**: 39.9%
- **2016**: 36.1%
- **2015**: 35.9%
- **2014**: 34.5%
- **2013**: 27.6%

CONCLUSIONS

- New high-level scientific contributions to EJMP are expected from SFPM medical physicists

- Implication in the Editorial Board of EJMP is needed (new nominations at ECMP 2018)
